

Using Bouncy Castles or inflatables whilst hiring the Hall

Material damage for any bouncy castle/inflatable is not included in the Hall Insurance policy and is the responsibility of the owner.

Hirers must ensure that:

1. Access and use is controlled by an authorised adult at all times.
2. The bouncy castle must not be used outside the Hall building.
3. Soft matting should be used to cover hard surfaces adjacent to the front or any open sides where there is a risk of injury from falling from the inflatable.

Where the hirer is using a bouncy castle, we expect you to take extra care to prevent injuries by making sure measures are put in place that help to reduce risk and our guidelines are:

1. To follow the manufacturer's or supplier's safety recommendations
2. Users of the castle must remove articles like shoes, buckles or jewellery
3. Do not allow overcrowding, particularly by children.
4. Do not allow a mix of large and small children at the same time.
5. Do not allow adults and children to at the same time.
6. Soft matting should be used to cover hard surfaces adjacent to the front or any open sides where there is a risk of injury from falling from the inflatable.
